Antioch Pays THOUSE TO Hernan Holbek

Herman Holbek, who founded the Antioch Rescue Squad and served as one of its leaders for 25 years, was honored last Saturday as Antioch's V.I.P. of 1976.

The 8th Annual dinner-dance was held at St. Peter's social

The co-chairmen of the event, Betty and Chuck Hope said of Mr. Holbek:

"Herman logged thousands of hours answering calls, teaching first aid, and raising funds. No task was ever too difficult for him, no matter how tragic, grisly or shocking:

"Herman Holbek's unselfish dedication to a vital community need has resulted in the development of the first and finest Rescue Squad in the state of Illinois, Herman has also served the Antioch Community as a member of the Village Board, as Police Commissioner, and as a precinct committee-

"Herman and his wife, Doris, have been married for almost 30 years. He is the proud father of Richard, Hugo, Herman, and

Jean Abear, and is equally proud of his eight grandchildren."

PREVIOUS ANTIOCH residents honored at V.I.P. dinners were Jim McMillan, Bill Brook, Dr. William Petty, Rudy Eckert. Al Dittman, Fern Watson and, last year, Elmer and Gert Zimmerman.

Mr. Holbek received awards from Mayor Robert C. Wilton and Fr. Francis L. Johnson, pastor of St. Peter's parish.

Ev Oftedahl, who retired from the Rescue Squad after serving for 30 years, told humorous and interesting storles of the early days when he and Mr. Holbek were among the volunteer squad's "pioneers."

"Herman was my instructor," said Mr. Oftedahl. "But he not only taught me first aid; he taught me people. He also taught me how to be humble. Herman didn't get recognition; he didn't want recognition. To him it wasn't only first aid, it was the humanitarian thing to do.

Candidates' Forum At Grade School

Candidates for Grade School District 34's board of education have been invited to a "meet the candidate' session.

It will be held tonight (Wednesday) at 7:30 at the Upper Grade School. The public is

invited. Sponsoring the event is the Antioch Elementary Education Association.

There are six candidates for

the two positions opening on the board. They are Robert E. Kelley, an incumbent; Jimmy Quedenfeld, Michael C. DeBenedetto, Robert N. Olson, Clinton T: Glover and Homer (Sid)

The election will be Saturday, Apr. 10.

Board President Gerald VanderMeer is not seeking reelection.

Paul L. Epner, a member of the teachers' association, said the purpose of tonight's meeting "is to allow the electorate to find out more about each candidate."

He has asked the six candidates to prepare responses to three questions:

1. What, in your background or philosophy, makes you think you should be elected over the other candidates?

2. What two items about the school district are you so satisfied with, that if any attempt to change them was made, you would lead the battle to maintain the status quo?

3. What two items about the school district are you so dissatisfied with that you intend

Poem is Highlight Of Holbek Tribute

A large crowd turned out last Saturday night at St. Peter's social center, where Herman Holbek was honored as Antioch's V.I.P., for, 1976.

It was a tribute to the man who founded the Antioch Rescue Squad and served for many years as its leader and captain.

Among the many tributes made to Mr. Holbek was this poem; written by masters of ceremonies Ray Gallaher and Dan Kasik:

Two cars come together and bodies start to ache; The night is filled with sirens and the Rescue Squad's awake:

They're on the scene in minutes, to administer first aid, And when they're done they head for home, another call is made:

A child lies still, not breathing, stretched out on the floor. The mother stands above him crying, when the squadmen hit

A check for pulse, some life-giving air, the child starts to breath.

And a grateful mother can only say "thanks" as the squadmen turn to leave.

The Rescue Squad was started by forward-thinking men. Our V.I.P., Herman Holbek, helped form it, way back when.

Herman led the Rescue Squad for 25 years; he took it from nothing to great. Now fully equipped and highly trained, they stand the

best-rated in the state.

Herman didn't build the squad by himself; he didn't do it

Many of you seated here tonight have called the Rescue Squad "Home."

But it's Herman that we think of when the whistle starts to Standing in the doorway, wishing he could go.

Herman, you're our V.I.P. This is your night, so have a ball. We know you'd trade it if you could, to answer one more call.

Highest Rates Paid

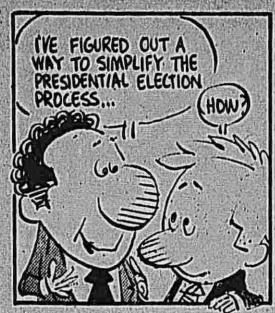

The State Bank of Antioch pays the highest guaranteed interest rates allowable ulluei Federal Regulations on all of its savings plans. Put your money to work for you, earning a full 7.89 annual yield on six year 7-1/2 percent Certificate of Deposit with a \$1,000.00 minimum deposit. (Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the regular passbook savings deposit rate.) Money grows faster at the State Bank because we pay you 5.16 annual yield 5 percent on passbook savings, compounded daily; from the day of deposit to the day of withdrawal (absolutely no penalty for withdrawals). Most savings institutions pay interest on the amount on deposit at the end of the quarter, but the State Bank pays you interest quarterly for the full time your money is on deposit, no matter when you need to withdraw. Rumsfeld Doesn't Trust the Soviets

By BARRY GOLDWATER

Americans who were afraid that the appointment of Donald Rumsfeld as secretary of defense might lead to a weakening of U.S. policy toward the Soviets have some interesting Pentagon statements to digest.

For example, unlike some of our former secretaries of defense. Rumsfeld says flat out and for publication that the Russians cannot be believed.

Rumsfeld blames the word "detente" for much misunderstanding on the part of many concerned Americans. He explained his views in a recent interview with the magazine,

BARRY GOLDWATER

U.S. News and World Report. Here is what he had to say on the subject of detente:

"IF ONE thinks that detente means that the Russians are our friends - that we can trust them - and that they will conduct themselves the way we do in our country and that they believe in freedom and individual Godgiven rights of man, that they will not continue to support 'just wars of national liberation,' or that they will not continue to develop substantial military strength to serve their interests

-anyone who thinks that is dead

Aside from President Ford's announcement that he was

dropping all use of the work, I doubt if anyone has described the policy of detente with more gutsy perception any where in the government.

MORE AND more as we get into this problem of the United States versus the Soviet Union, Secretary Rumsfeld is proving to be a tough and worthy adversary for his Soviet counterparts.

For example, he commented the other day that the Central Intelligence Agency said the Soviets plan a \$153 billion defense budget in 1977 and that this would give the United States rough equivalency with the U.S.S.R. He added, however, that the reason we can say we have an equivalency with the U.S.S.R. now is because of decisions made five to 10 years. ago.

He closed this particular press conference by saying, "I'm not warning that the Russians are coming; I'm saying the trends are here."

It's Grass Fire Time: Careful **Burning Trash**

Antioch firemen fought a huge grass fire Friday afternoon in a field just west of the high school's athletic stadium. Smoke from the fire rose so high that it could be seen from the downtown area.

Fire Chief Charles Maplethorpe asked residents to be careful about burning trash as this is the time of the year, when warm spring winds often dry out fields and make them highly inflammable.

Other grass fires threatening dwellings, also have bothered the volunteer fire fighters in recent weeks.

YWCA Offers Variety Of Classes

Belly dancing will be offered on Monday evenings and Tuesday mornings, with a class on belly dance costumes to be held on Thursday evenings.

\$2 Bills To Save Taxpayers Millions

For the first time in a decade the Chicago Federal Reserve Bank and its counterparts across the country are shipping \$2 bills to commercial banks.

The commercial banks in turn will begin to issue them to the public on Apr. 13, Thomas Jefferson's birthday, according

to William E. Brook, president of the State Bank of Antioch.

Like its most recent ancestors, the face of the new bill features a portrait of our third President, the recognized author of the Declaration of Independence. But while the portrait is unchanged, the inscription above it designates the new bill as a Federal Reserve Note (as is over 99 percent of all U.S. paper currency in circulation today) rather than a United States

Therefore, the bills delivered by the Chicago Federal Reserve Bank bear its own seal to the left of the protrait. The back of the bill is entirely new, featuring a vignette from John Trumbull's painting "The Signing of the Declaration of Independence." (Previously Thomas Jefferson's home, Monticello, appeared on the reverse side.)

While the timing of the issue and its design clearly commemorate our nation's bicentennial, the new bill is being issued as a permanent part of our currency stock, Mr. Brook said. And the reasons for this boil down to "hard cash".

The treasury department expects that, especially in light of the price increases of recent years, the public will find the \$2 demonination very convenient for small transactions. If the treasury is right, the bills could replace about half the singles now in circulation. Since one dollar bills - on average, 1.7 billion notes annually - account for almost 60 percent of the total volume of currency printed

The Town Crier

When I was freed from the U.S. Navy 20 years ago I had a pet saying:

"There is nothing quite as petty as a chief petty officer."

There are exceptions, of course, including the chief I had in boot camp. Down deep, he was a warm human being and I don't believe he liked the navy either.

OUR ARMED Forces are necessary evils. If most of us could have our way, there wouldn't be an army, a navy, a marine corps or an air force. But we need them in case we must defend ourselves.

As in any large organization, there is a tremendous amount of waste in the military. Anyone of average intelligence could study a place like Great Lakes, for example, and eliminate a large percentage of the goldbrickers who are merely living off the tremendous amount of money we workers must pay in taxes.

I have always felt that, with some exceptions, the man who prefers a military career to getting out in the world and hacking it for himself is usually a different breed of cat.

EXAMPLES OF this were illustrated in a Washington Post story this week. We quote:

"The Marine drill instructor at Parris Island ordered the recruit to throw away his crutches and walk back to the barracks on his broken leg.

"The private was in excruciating pain all the way back,"

the Marine said of himself in a sworn statement, and when he finally reached the barracks the drill instructor "doubled up his fist for no reason and hit me."

Another drill instructor shot a recruit through the hand at the end of two days of hazing, including orders to shout obscene things about his mother.

Drill Sgt. T. L. Shaw, according to the testimony of another recruit last month at Parris Island, "is known for repeatedly grasping at the throats of privates with a chopping movement..."

Coles Found Guilty of Extortion

Ronald R. Coles, Lake Villa township supervisor, was convicted last Friday of extorting \$800 from two tavern owners in

Coles, 42, who also is a County Board member from District 4 will have to give up both of his offices. Sentencing has been set for May 5. The maximum penalty for extortion is 20 years in prison and a \$10,000 fine.

In a 45 minute verdict, U.S. District Court Judge Prentice H. Marshall indicated he did not believe the testimony of three prosecution witnesses, and he found Coles innocent of five of the seven counts contained in a federal indictment returned in April of 1975.

All the charges against Coles related to his power to issue and revoke liquor licenses as Lake County liquor commissioner, a position which went with his former job of Lake County Board chairman.

Marshall found Coles guilty

-Extorting \$300 from Joseph Budy, owner of the Sahara Inn on Rt. 41, near Lake Bluff. Budy testified he made the payment after his license was revoked when he listed his address as Cicero.

-Extorting \$500 from Wil-

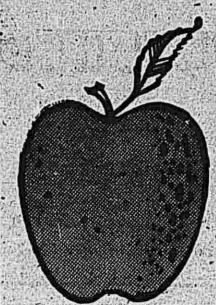

liam E. Dugan, owner of the Country Music Inn. in unincorporated Prairie View. Dugan originally told the grand jury he paid Coles \$1,500, but changed his story during the trial and said that while he could not remember the exact figure, it was between \$300 and \$500.

Marshall found Coles not guilty of other charges, including extorting \$400 from Marino Petrucci, operator of the former Marino's Lounge near Antioch.

Gerald VanderMeer of the Country Companies insurance firm was on crutches Monday night at the Lions Club "Wild Game Dinner." Jerry said he injured his ankle playing basketball but, you know, we can never tell whether or not he's putting us on. (If he pulls our leg too hard, we'll be on crutches.)

LLOYD PEDERSEN, the young Antioch singer and entertainer who is coming up nationally in the music world, was among the guests at St. Peter's Saturday night when the

community honored Herman Holbek as its V.I.P. We tried hard to get Lloyd on stage to sing a number with the band, but he modestly declined. He's home for just a few days, then takes his show to South Dakota later this week.

The new "Spring and Prom Fashions" will be displayed next Tuesday, 8 p.m., at the Antioch High School auditorium. Stores participating include Four Squires, BJ's Fashions, Susie's Casuals, JC Penney and Montgomery Ward.

JIM MEANS of Norshore Resort says, yes, he'll go through with the big trapshoot challenge against Dave Bushing of Foremost Liquors and Bill Brook of the State Bank of Antioch.

Jim made the challenge, asking to compete against the "best shooter" from the liquor store and the "best shooter" from the bank. Dave and Bill accepted but said:

"Since we are the ones being challenged, we have our choice of weapons. We therefore choose 9-millimeter shotguns to be fired one-handed from two yards behind the traphouse."

Where in the world do you find a 9-millimeter shotgun nowadays?

Jim says: "Since they chose the weapons, they must furnish them. But I at least thought the State Bank would choose their best shot ... Petey Filip, maybe."

The contest is scheduled for 2

Ask the Old Farmer: Where did the expression getting "the upper hand" originate? F.Y., Sacramento, Calif.

The two-handed sword was used in Europe before the 12th century, and the expression probably started when the sword was invented. The upper hand, in this case, was the guiding hand and thus the more important.

ARIES [March 21-April 19] - Personal aims are realized through close friends who have your best interests at heart. A favorable situation can develop at a social gathering which could change views on certain issues.

TAURUS [April 20-May 20] - Be flexible and willing to make concessions to improve working conditions. Any opposition you meet must be dealt with in a conservative manner.

GEMINI [May 21-June21] - Your aims should be focused on long range plans. Although you're unable to see immediate results on current project, a good trend promises successful results.

CANCER [June 22-July 21] - Gather all the facts before jumping to conclusions: Your meticulious attention to detail is an important factor in personal issues now. Attend to first things first.

LEO [July 22-August 21] - If relatives try to force issues try to stay on good terms but don't back down where values are concerned. Consider a short vacation to change the scenery.

VIRGO [August 22-September 22] - Friends and kin can both be helpful in getting that brainstorm off the ground. Get actively involved as things have now progressed past the planning stages.

LIBRA [September 23-October 22] - Take the time you need to think things out thoroughly. Try not to get involved in speculative ventures that entail any financial risk.

SCORPIO [october 23-November 21] - Although current trends for Scorpio indicates many changes you still hold control over all situations. By adhering to a fixed routine you are best able to reach your aims.

SAGITTARIUS [November 22-December 20] -By reuniting with old acquaintances a new outlook can be established. A positive attitude carries enough weight to convince superiors of your fine ideas.

CAPRICORN [December 21-January 20] - Although eccentric people have special appeal for you don't get carried away by proposals that are too way out. Include close friends who are dependable in you activities.

AQUARIUS [January 21-February 19] - You may be too extravagant when it comes to spending on personal items. Conserve expenditures without cuttin corners to the extreme, separate luxury from necessity.

PISCES [February 20-March 20] - Be emphatic when dealing with people who don't see eye to eye with you. By coming to terms with difficult matters misunderstandings are less likely.

Kimball Is 'All-County'

Scott Kimball, Antioch High-School senior, was named last Friday to a 20-player "All-Lake County" team selected by the Waukegan News-Sun.

Kimball, a 6-foot-3 forward, averaged 17.6 points a game while Antioch placed second in the Northwest Suburban Conference with a 10-4 record.

Receiving honorable mention on the All-County team were George Ferguson, who averaged 12.7 points a game for Antioch this season, and Mitch Witt, who averaged 12 points.

Coach Roger Andrews' Sequoits had a 16-9 record for the entire campaign. Kimball averaged 17.3 points in all games and also led the team with 232 rebounds.

All three were expert shooters, Witt sinking 52 percent of his field goal attempts, Fergu-

son 49 percent and Kimball 48, percent.

Guard Jon Bodin led the team in assists with 120, Witt was second with 80 and Kimball third with 66. The other starter, and team captain, Bob Dubek, was fourth with 60.

Bodin and Dubek each averaged close to eight points a game.

Kelly Harris of Stevenson won the conference scoring title with 19.4 average. His team placed third with a 9-4 record. Nick Seichow of championship Woodstock was second in the scoring race with an 18.1 average.

Northwest Suburban Conference players included on the All-County team, in addition to Harris, Seichow and Kimball, were Mark Cordes of Stevenson, Kevin Kelly of Grant, Mark McClain of Grayslake and Brian Sarff of Wauconda.

10 YEARS AGO

Spring.Sports in Antioch

By BETSY ROSSEN

Although football and basketball have traditionally captured most of the sport fan's attention, we focus our attention to the spring sports of 1966. So we'll turn back the scoreboards, and the Antioch News pages, to the high school baseball and track highlights of a decade

The track squad continued to be "the Sequoits" winningest athletic team" by winning its second consecutive conference title. Serving as the host for the conference meet, the local team piled up 67 points, 18 more than the nearest competitor, Lake: Forest.

Tyrone Walls, also a basketball star, was the standout with firsts in two events. He set a new conference shot put récord of 55'41/2", and later ran the 120-yard high hurdles in 15.6 seconds.

A BIG surprise in the meet was Glen Oftedahl's first place finish in the high jump. His leap of 5'10" was tops, and upset his favored teammate Bob Schenk:

The varsity squad completed the season with a 7-3 record. It remained undefeated in conference dual and triangular meets for the third straight year, and extended its unbeaten record to 20 consecutive victories. In 1966 and the previous three years, the varsity had a conference tally of 27 wins and one loss.

Coach Roger Andrews said that the team was "an excellent

BETSY ROSSEN

group of young men." Elected to team honors by their teammates were: Tyrone Walls, most valuable; Bob Schenk, captain and Don Zeman, most improved.

BILL SEAMANN, in his first year as baseball coach, brought the team to a ..500 season, an improvement over previous years. He operated all season with a young team, which had hopes of being a conference contender the next year.

Wayne Channel was the top pitcher for Antioch with three victories to his credit. He pitched 47 innings, gave up 30 hits, 27 walks and struck out 43. His final earned-run average was 3.01.

Leading batsman for the Sequoits was Mike Redden, hitting .323 for the season. He collected 11 hits in 34 times at bat, including two doubles, a triple and one homer.

The all-sophomore infield was composed of Redden, Greg Drije, Steve Miklautsch and Al Alexander.

Marines to the point that a group of them is organizing in hopes of forcing a congressional investigation of the corps' training practices.

Top Marine leaders insist that they, too, are horrified over such abuses and have ordered the most sweeping changes in 20 years to end them.

No longer, these leaders vow, will the Marine drill instructor be a law unto himself under the old tradition of "the DI knows best." More commissioned officers will participate directly in recruit training, both at Parris Island and San Diego.

Also, these generals pledge, the "abnormal" stress will be taken out of boot camp for both the DI and the recruit - partly by shortening the training day from 16 hours to 10 hours with Sundays off.

"We're going to try to operate

with a greater degree of genuine concern for the recruit an unheard of thing," Lt. Gen Robert Barrow said.

"Many former Marines will say that it's terrible - that we've gone permissive," Barrow said. "But we're going to try in every way possible to have the recruit treated as a human being - with dignity and fairness and firmness. There will be a cleanup" of the physical and mental abuses which, in Barrow's view, occur only "here and there" in the corps.

You never get a second chance to make a good first impression.

Petro-Products Improve Life In Many Ways

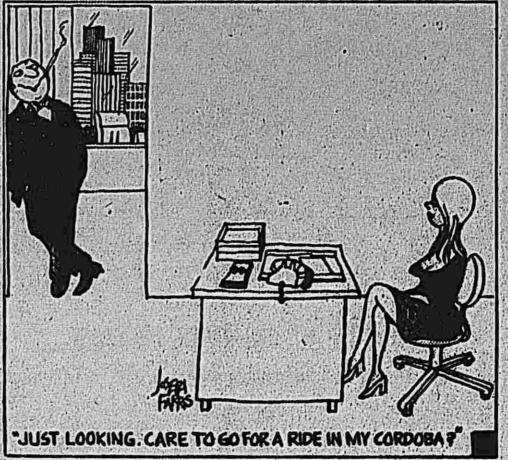

WEDNESDAY

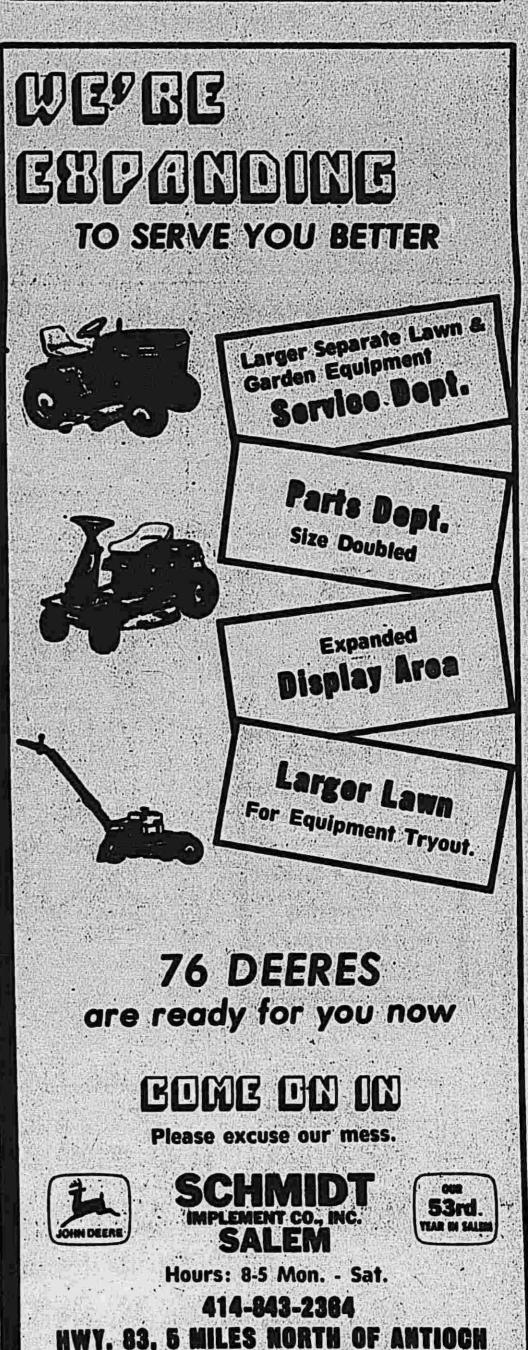

When we think of using oil and natural gas, we think of transportation, heating and power. Yet every day we use them in many other ways.

For instance, more than onehalf of our clothing is made from fibers derived from petrochemicals, 93 per cent of our carpeting is petrochemical in origin and 18 per cent of our blankets are made of the manmade fibers.

Then there's housing. The Manufacturing Chemists Association reminds us that all plywood is held together with plastic resins, as is the bulk of home insulation. Paints, floor tiles, circuitry, enamels, and faucets' washers are just a few more of the things that come from petrochemicals.

And most of us wouldn't want to try getting along without aspirin, soap and detergent—all petroleum derivatives.
